

CAO VISION

The first Dominican-made cigar in the CAO Cigar portfolio, CAO Vision features a four-year-old Dominican Corajo wrapper and is an extraordinary composition of tobaccos from the Dominican Republic, Nicaragua and Brazil. Every CAO Vision cigar undergoes a series of quality control checkpoints and has been draw tested to ensure the most satisfying smoking experience possible. In addition, where many premium cigars are aged for a period of 60-90 days prior to being packaged, CAO Vision cigars are aged for a minimum of six months.

CAO Vision is packaged in a state-of-the-art cigar box that doubles as a humidor. The CAO Vision box/humidor has been scientifically calibrated to ensure the 68-72% relative humidity level that equates to optimally stored cigars. The result is a rich smoke with a flawless draw that loads the palate with opulent flavors of cedar, leather, dark cocoa, and roasted nuts.

WRAPPER: Dominican Republic
BINDER: Dominican Republic
